

Project Demo Planning

Date	2 July 2026
Team ID	XXXXXX
Project Name	Flood Prediction
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Introduce the project, explain the importance of flood prediction, existing challenges, and project objectives.	2	Team Member 1
2	Dataset & Machine Learning Models	Explain the historical weather dataset, preprocessing steps, and the machine learning algorithms used (Decision Tree, Random Forest, KNN, and XGBoost).	3	Team Member 2
3	Live Application Demonstration	Demonstrate the Flask web application by entering weather parameters and showing the flood prediction result in real time.	4	Team Member 3
4	Results & Performance	Present the model comparison, explain why XGBoost was selected, and highlight the achieved 96.55% accuracy .	2	Team Member 4
5	Future Enhancements	Discuss future improvements such as live weather API integration, SMS/Email alerts, GIS maps, and IBM Cloud deployment.	2	Team Member 1
6	Conclusion & Questions	Summarize the project benefits and answer questions from the evaluator.	2	All Team Members

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Explain the need for an intelligent flood prediction system and the project's objectives.
2	Solution Overview	Describe the system architecture, historical weather dataset, Flask application, and machine learning models (Decision Tree, Random Forest, KNN, and XGBoost).
3	Live Feature Demonstration	Show the Flask web application, enter weather parameters, generate a flood prediction, and explain the result.
4	Q&A Session	Answer evaluator questions, discuss model accuracy (96.55%), limitations, and future enhancements.
